EXPERIENCE

Waiter Summer 2022
Food Service

- Key soft skills developed: *customer service, teamwork, multitasking, communication under pressure*

PROJECTS

Flip7 | *Kotlin, JavaFX*

- Designed a card game following an MVC architecture, separating game logic, state, and UI layers
- Wrote over 300 unit tests using JUnit framework to validate game logic and edge cases

Social Network Analysis and Visualization | *Python*

- Implemented Dijkstra and Bellman-Ford shortest-path algorithms on a graph modeling a social network, resolving all-pairs paths in ~9s on a 200-node, 350-edge dataset

2D Particle Simulation | *Golang*

- Implemented a 2D collision detection system in Go
- Optimized collision pair detection using the sweep and prune algorithm, sustaining a stable 60 FPS with over 20,000 active particles

Personal Portfolio | *HTML, CSS, JavaScript*

- Personal website showcasing my projects (Flip7, Python platform game, social network analysis)
- Optimized performance by stripping unused fonts and web icons, converting media to WebP format, boosting Google PageSpeed score from 60 to 79

Mario Maker | *Python, PyGame*

- Developed a 2D platform game in Python with PyGame, including a level editor and original music
